

FOCUSPOWER

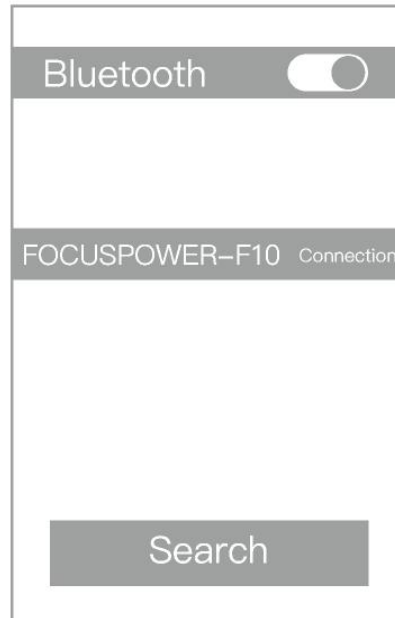

Mini Wireless Headset
USER MANUAL

Pair and connect

Long press
the button
for 5 seconds

1. With the headset off, long press the multifunction button for 5 seconds until the voice prompts “ready to pair” when the blue light starts to flash.

2. Activate the Bluetooth on mobile phones or computers, then search and add new Bluetooth device in the menu.

- IOS terminal Settings > Bluetooth > Turn on
- Android terminal Settings > Turn on Bluetooth > Search
- Different devices may lead to different operation interfaces.

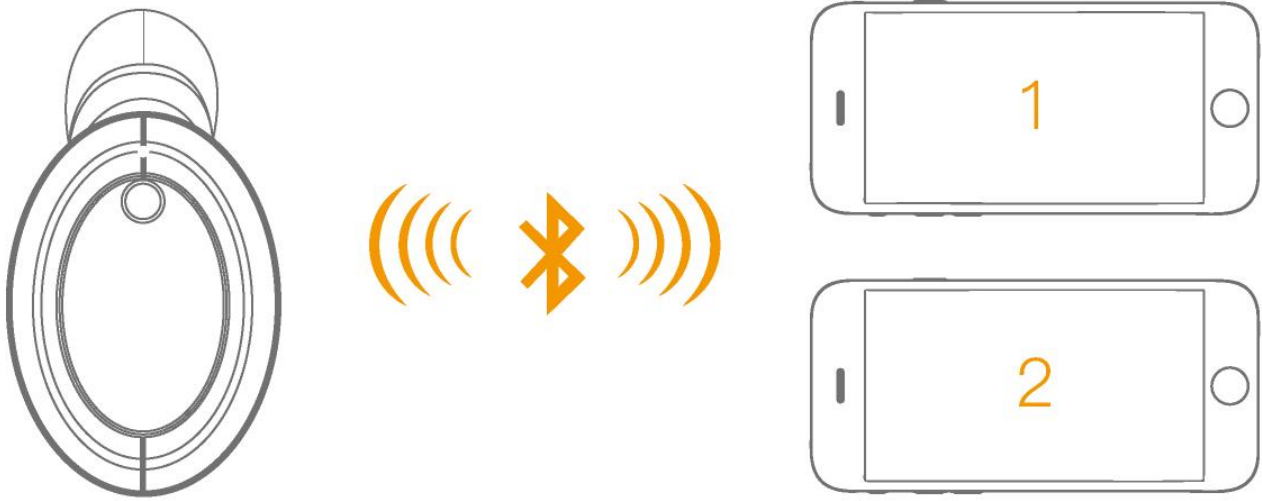

3. Select “FOCUSPOWER–F10” from Bluetooth device list. Please type in”0000” if password is required. The blue light will go out and voice will prompt “Connected” if connection is completed.

The effective range is within 10 meters

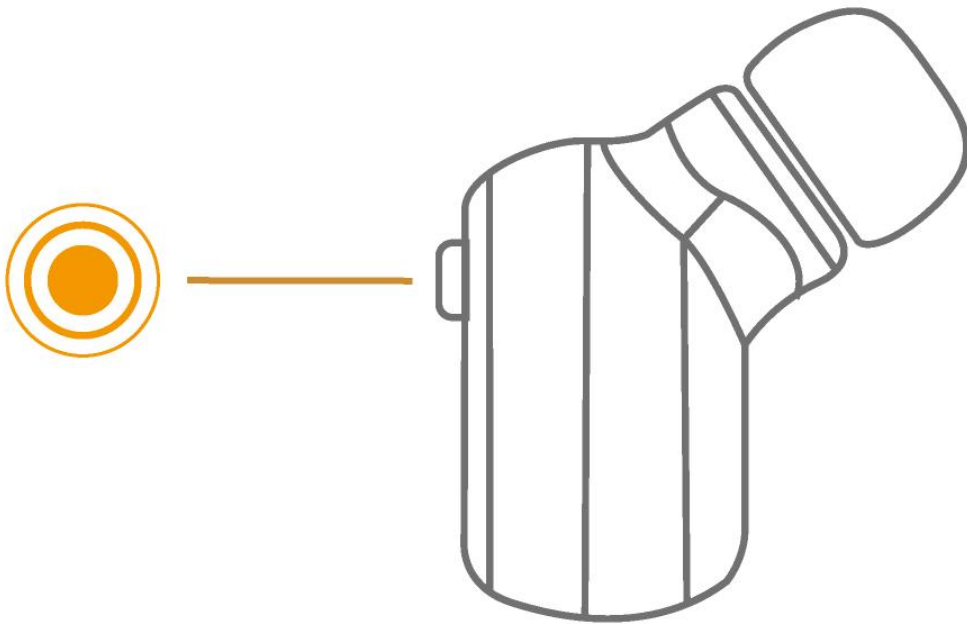

4. The second time you connect the headset with the device which has already been connected to the F10 previously , you needn't repeat the above steps, the headset will automatically enter the pairing mode when you turn it on.

5. The headset supports multipoint connection(one for two). You can pair it with second mobile phones at the same time and answer calls from either one.

- Turn off the headset after it's successfully paired with the first mobile phone.
- Long press the multifunction button for 5 seconds to pair with the second device.
- Then select “FOCUSPOWER–F10” in the Bluetooth menu of the second device. At last the two devices have been connected with the headset.

Usual Connection

- ▶ If the range between the Bluetooth and device is more than 10 meters, the sound quality will be terrible and headset will be constantly cut in and off. In this condition the headset should be repaired with your device. If they can't be repaired, please select the Bluetooth name of the headset in settings to repair.

5 minutes

- ▶ To reduce the battery consumption, if there has been no connected devices in the effective range of headset within 5 minutes, the headset will be automatically shut down.

Comfortable wearing

Right ear picture R

Left ear picture L

The F10 earbud is designed for both ears. It will be very comfortable for you whether you wear it in your left or right ear.

Charging

To ensure safety, please note two points below:

1. Please stop charging the headset when it has already been fully charged.
2. Please keep the headset off when it's being charged.

- When the voice prompts “battery low”, the headset needs to be charged. When it’s being charged, the blue light will come on. When it’s fully charged, the blue light will go out.

- Generally speaking, it will take 30–45 minutes to fully charge the headset. However, the charging time will make a difference if you use different USB–adapters.

- To preserve the battery capacity and life, please don't keep charging the headset too long.

- The current battery level will be displayed on the device, you can check it anytime and anywhere. (Some Android phones don't support this function)

Important Safety and Operational Information

Thank you so much for choosing FOCPOWER product. Please read the following safety and operational instructions before using your headset/headphones and accessories. Please keep these instructions for your reference. This symbol identifies and alerts the user to the presence of important safety warnings.

General

- ▶ Operating, storage and charging temperature is 0°C to 40°C (32°F to 104°F) .

Warnings

- ▶ Exposure to high volume sound levels or excessive sound pressure for a long time may cause temporary or permanent damage to your hearing. You should always use your headset/headphones with the volume set at moderate levels.

- Observe all signs and instructions that require an electrical device or RF radio produce to be switched off in designated areas, such as gas/refueling stations, hospitals, blasting areas, potentially explosive atmospheres, or aircraft.
- This product is not a toy. Never allow children to play with the product – small parts may be a choking hazard.
- Install and use eartips and earbuds in accordance with the instructions provided. Do not force eartips or earbuds down the ear canal. If either becomes lodged in the ear canal, seek medical attention immediately.
- If the product or charger: overheats; has a damage cord or plug; has been dropped or damaged; has been dropped into water, disconnected any charger from its power supply, discontinue use of the product.
- To avoid the risk of electric shock, explosion, fire or leakage of corrosive or toxic chemicals, observe the following charging and battery warnings. Charge the headset/headphones according to the instructions supplied with the unit.

- Use only the charger supplied by FOCUSPOWER to charge the product. Do not use the charges for any other purpose. Ensure that the voltage rating corresponds to the power supply you intend to use.
- Never charge the battery where the temperature may fall below 0°C(32°F) or rise above 40°C(104°F) – for example, in an unattended motor vehicle.
- Avoid charging the battery while it is unattended.

Battery Warnings

- To avoid the risk of explosion, do not dispose of the product or battery in a fire or heat above 100°C.
- Do not attempt to open the headset/headphones or remove the battery. Do not open, deform or mutilate the battery as there may be corrosive materials which can cause damage to eyes or skin and may be toxic if swallowed.
- **Recycling:** Your product and batteries must be recycled or disposed of properly. Contact your local recycling center for information on proper disposal.
